2025

WHERE INNOVATION MEETS **COMFORT** FOR CRYSTAL CLEAR COMMUNICATION.

N•ear is a Florida-based American company that was originally founded in Copenhagen, Denmark in 2018. The company manufactures and sells premium audio equipment. Our premier engineers, audiological researchers, and in-ear specialists meticulously craft innovative audio solutions that are the pinnacle of quality.

N•ear is best known for it's 360™ in-ear pieces boasting 0% ear fatigue, microspeaker technology, 100% situational awareness, crystal-clear communication, and ultimately unmatched comfort.

Our Commitment to **Excellence**

Equal to the engineering, the N•ear team is dedicated to our customers and the entire experience with N•ear™. Customer service is at the heart of N•ear™. After working with N•ear™, you'll understand why we plan on working with our clients for years to come.

EXPERIENCE

THE LUXURY OF ABSOLUTE **COMFORT**

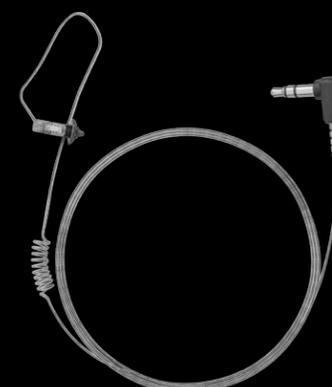

Indulge in the unparalleled comfort and cutting-edge technology that eliminates ear fatigue, ensuring a luxurious experience. Immerse yourself in crystal-clear communication, seamlessly integrating advanced features for an unparalleled audio experience.

N•EAR 360™ ORIGINAL

RO-360-22-3.5-L / RO-360-22-3.5-R

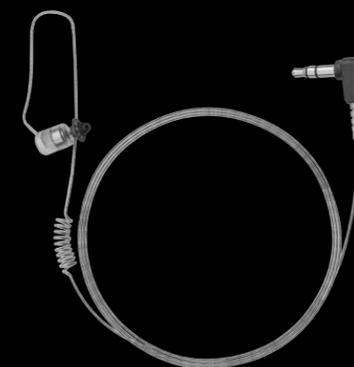

The N•ear 360™ Original earpiece is ear-specific and features a patented bend that offers a firm and secure hold. With a precise fit for either your left or right ear, the N•ear 360™ Original guarantees comfort and performance.

N•EAR 360 FLEXO™

RO-360F-22-3.5

Experience the best of both worlds with the N•ear 360 Flexo™. With the same comfort and durability as the N•ear 360™ Original, the Flexo offers a game-changing feature: the ability to effortlessly switch between the left and right ears.

N•EAR 360 FLEXO DYNAMIC™

RO-360FD-22-3.5

The N•ear 360 Flexo Dynamic™ is designed for those who prioritize affordability. This model offers the same flexible bend that can be worn on either the left or right ear. We successfully lowered the cost by using a larger dynamic speaker that maintains a full sound profile.

ELEVATE

YOUR COMMUNICATION

N•ear's Braided Fiber Cloth™ cords are built for demanding applications, consistently outperforming standard cords. With a remarkable 90 lb pull-strength, the meticulously woven construction enhances longevity by reducing wear and tear, while the braided design minimizes tangling and kinking, showcasing N•ear's commitment to quality.

Designed to enhance the wearing experience of the earpiece in various vest configurations, N•ear's Braided Fiber Cloth™ cord preserves signature sound quality and unparalleled comfort. Whether engaged in surveillance, coordinating operations, or responding to emergencies, N•ear prioritizes the imperative need for reliable and efficient gear in the law enforcement field.

Available in all single and dual models.

ENCOUNTER

COMPLETE AUDITORY EQUILIBRIUM

N·ear's dual-ear earpiece elevates the audio experience, immersing users with sound in both ears. The human brain instinctively seeks sound equilibrium, making the practice of having both ears engaged in communication while maintaining 360° situational awareness. Users discover the ability to reduce volume by 10 to 15 decibels when utilizing a N·ear 360™ Dual earpiece.

DUAL EARPIECES

N·EAR 360™ STINGER KIT

N·EAR 360™ ORIGINAL
RD-360-24-3.5-D

The N·ear 360™ Dual earpiece, meticulously crafted for both ears, features a patented bend for a secure hold and the best in-ear stability. Designed for a precise fit, it ensures unparalleled comfort and performance with balanced sound.

N·EAR 360 FLEXO™
RD-360F-24-3.5-D

The Flexo introduces a revolutionary feature — the ability to switch effortlessly between the left and right ears. Meanwhile, the dual earpiece delivers a superior balanced sound, enhancing conversations without the need for earpiece removal.

N·EAR 360 FLEXO DYNAMIC™
RD-360FD-24-3.5-D

The N·ear 360 Flexo Dynamic™, tailored for affordability without sacrificing crystal-clear communication, features a flexible bend suitable for either ear and a high-quality dynamic speaker. The dual earpiece ensures seamless conversations and reduced volume levels.

N•EAR 360™ TAC INLINE MIC. EARPIECE W/NEXUS

360F-IM+22-NEXUS

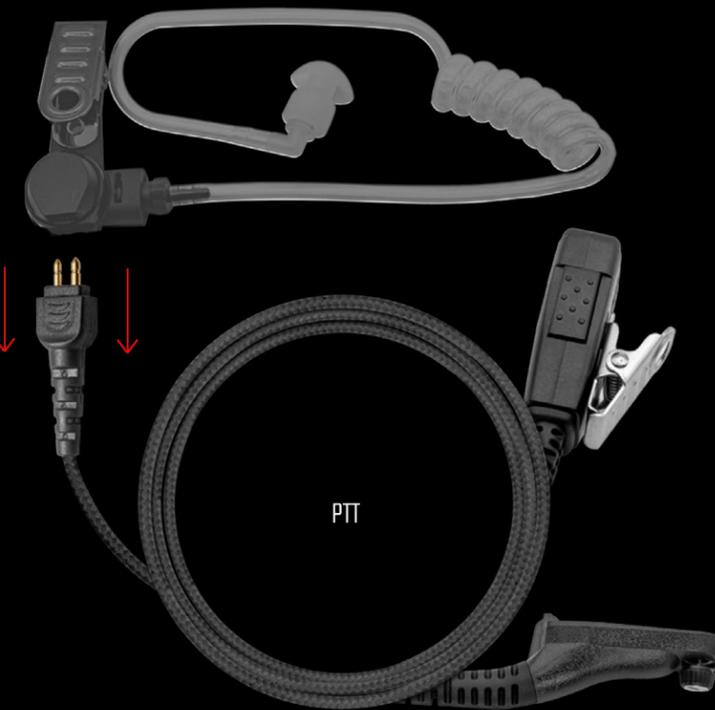

The new N•ear Tactical In-line Mic. earpiece bridged the gap in communication. Using the same comfort and reliability as other N•ear 360 models, the tactical In-line series allows you to ditch the cumbersome over the ear setup while still utilizing your same current set up.

TACTICAL

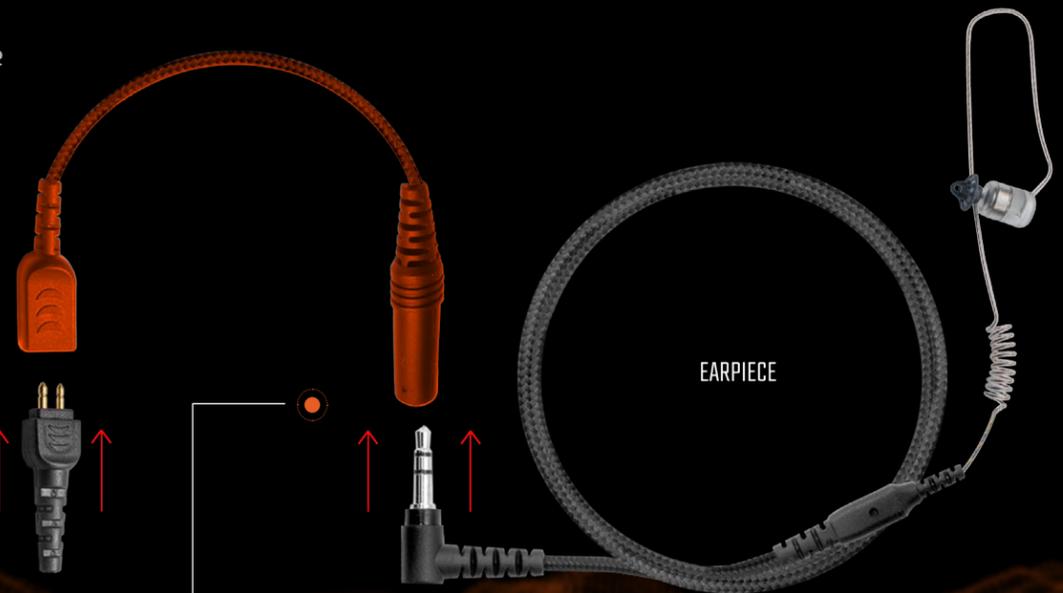

ACOUSTIC TUBE CONVERSION

In just three simple steps, transform an existing acoustic tube earpiece into a cutting-edge N•ear earpiece, packed with modern features designed to enhance comfort and awareness.

1 Disconnect the existing tube

2 Take the adapter

3 Plug the earpiece into one end and the PTT into the other.

CHOICE™ PTT/MIC.

C+PTT-M12

Embracing the CHOICE™ PTT/Mic. facilitates a seamless transition into a transformative communication experience. For users accustomed to earpieces directly linked to a speaker mic, the CHOICE™ PTT/Mic. operates similarly. Lighter and more flexible, this model is non-wireless and non-water resistant.

CHOICE™ PTT/MIC. IP-65

C+WPTT-M12

The CHOICE™ is yours. Featuring a premium side PTT/Mic. with a Braided Fiber Cloth™ cord, ensuring durability and comfort. With an IP-65 rating, it's dust-tight and resistant to water from any angle. Compatible with a Remote PTT Button, users can enjoy the flexibility of a second PTT on various platforms.

CHOICE™ PTT/MIC. IP-67

C+WWPTT-M12

The Water-proof CHOICE™ PTT/Mic. introduces advanced features, such as seamless pairing with up to two Remote PTT Buttons. Engineered with high durability, the IP-67 rating, protects against temporary submersion up to 1 meter of water and dust.

UNLEASH

THE FREEDOM OF WIRELESS COMMS

The Wireless PTT for CHOICE™ PTT Mic is a cutting-edge solution that revolutionizes connectivity and delivers an unprecedented hands-free experience. No more tangled wires or limitations, the device seamlessly adapts to various needs.

Steering Wheel

Drive with confidence and communicate effortlessly. Attach the Wireless PTT to your vehicle's steering wheel for convenient access while keeping your hands securely on the wheel. Prioritize safety without missing a word.

Firearms

Designed with versatility in mind, our Wireless PTT can also be attached to firearms. This gives you the opportunity for quick and seamless communication, ensuring you can stay in the loop and keep your eye on the target.

Handlebars

Motorcycle enthusiasts, cyclists, and users of handlebar-equipped vehicles, this one's for you! Our Wireless PTT can be securely mounted on your handlebars, allowing you to stay connected while maintaining full control of your vehicle on-the-go.

K-9 Unit

The PTT button on a K-9 leash transforms the way you communicate with your loyal companions. With a simple press, it silently conveys commands, enhancing training precision and fostering trust. Becoming a vital tool in high-pressure scenarios like search and rescue missions.

CHOICE™ REMOTE PTT W/ PICATINNY RAIL ADAPTER

CWPTT&RIS

When speed and efficiency of action matters, wire-free communication can save lives. The new Picatinny Rail Adapter for the Choice™ Remote PTT enables users to remotely activate their comms devices without taking your hands away. This leads to effective communication with your team while maintaining control.

PTT/MIC. POSITIONING

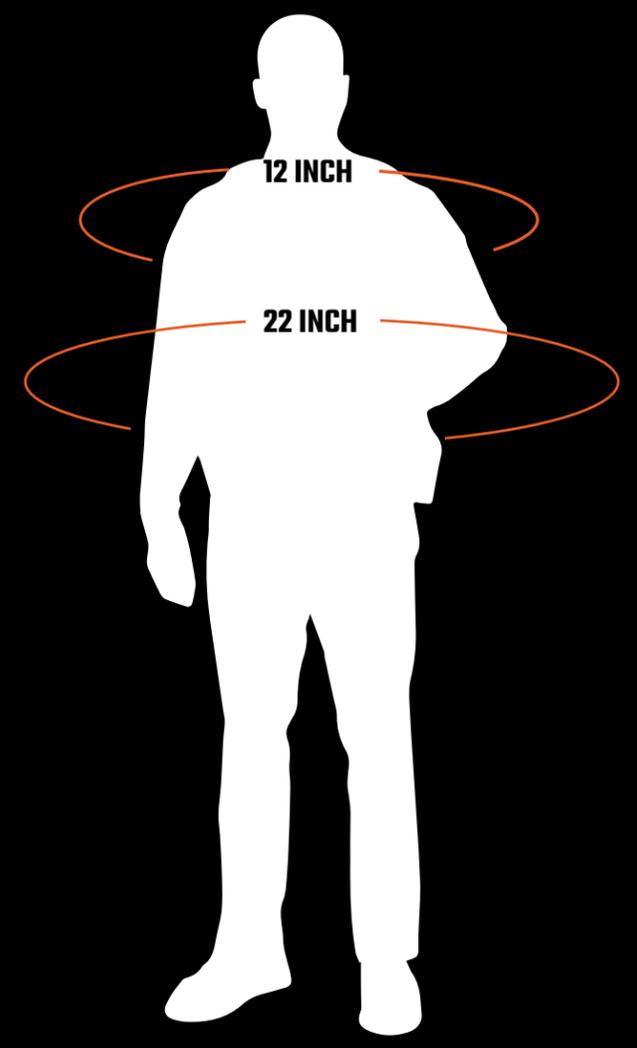

FIND THE BEST CABLE LENGTH FOR YOU

12 Inch

The 12-inch cable emerges as the ideal choice for law enforcement officers using an acoustic tube adapter or who prefer a shoulder/high chest position for their PTT microphone.

22 Inch

The 22-inch cable stands out as the preferred choice for law enforcement officers to accommodate chest mounted PTT or Speaker Mics. This cable length ensures the flexibility for for optimal placement of communication devices.

RECEIVE ONLY

The N•ear 360 earpiece seamlessly integrates with all speaker mics by directly plugging into the audio port. Its in-ear micro-speaker ensures the delivery of clear and crisp sound, whether at high or low volume levels. Available in 3.5 and 2.5.

N•EAR 360 PROTECTR™ UNIVERSAL EAR MOLDS

PUM-2

Explore 360° situational awareness with N•ear Protectr™ Universal Size Ear Molds. Crafted for comfort, these molds offer an ear fin design that holds a secure fit. Users can further tailor the experience by choosing between a range of ear tip sizes. The N•ear Protectr™ platform allows for easy tech unit changes to meet diverse audio needs. But that's not all - combine the Protectr™ line with the cutting-edge N•ear earpieces.

PROTECT YOUR GREATEST ASSET

Immerse yourself in the unrivaled protection and advanced technology of the Protectr™. Safeguard your hearing without compromising and sound quality on comfort from the range to the field. Protecting you from impulse sound up to 33dB of attenuation with our ANI IPIL certified filters.

N•EAR 360 FLEXO™ & CUSTOMIZED EAR MOLDS

N•ear offers customized ear molds that fit perfectly to your ears, scanned using Apple iPhone facial recognition technology in just under one minute. Combine the versatile 360 Flexo™ earpiece, with the Protectr™ ear molds, featuring multi-mode filters for enhanced protection. The N•ear Protectr™ platform allows you to change the tech unit at any time by pulling it away from the ear mold housing.

N•EAR PROTECTR™ EAR PLUGS

The N•ear Protectr™ series offers a comprehensive selection of hearing protection solutions. Designed for a variety of environments, these meticulously crafted earplugs guard against damage caused by peak sound pressure levels from automatic fire, gunshots, artillery, explosions, and more. Experience minimal occlusion, allowing users to stay aware of their environment without compromising on safety.

PROTECTR™ RANGE MULTIMODE

PR-2264

N•ear Protectr™ Shooting Multimode guards against hearing damage from peak sound pressure levels. Activating total block mode through a switch is useful in high ambient noise environments. Its compact and comfortable design makes it ideal for all-day wear, fitting seamlessly under communications headsets or earmuffs.

PROTECTR™ RANGE XTREME

PR-2265

N•ear Protectr™ Shooting Xtreme 25 diminishes peak sound pressure from gunfire and explosions, serving as a crucial tool for military personnel. Certified for impulse noise up to 166 dB with 33 dB attenuation, it ensures optimal protection against high-level impulse sounds.

PROTECTR™ HEAVY INDUSTRY

PR-2262

N•ear Protectr™ Heavy Industry 25 earplugs are reusable universal fit hearing protection, essential in noisy work environments like machine shops and construction sites. Designed for noise levels exceeding 85dB, they can be combined with earmuffs for double protection in loud settings.

PROTECTR™ HEAVY INDUSTRY METAL DETECTABLE

PR-2263

N•ear Protectr™ Heavy Industry 25, Metal Detectable, designed as Personal Protection Equipment with a metal-detectable filter, suitable for the food industry. Ideal for noisy environments like machine shops and factories, it reduces sound levels by 25dB, ensuring safe 8-hour use in up to 110dB environments.
